Planned Power Interruption

Thunder Bay, ON - On Sunday, August 10 from 5:00 a.m. to approximately 11:00 a.m. a power interruption will take place for safety reasons that will affect businesses located in the following area:

- The west side of South James Street between Walsh and Arthur
- The south side of Arthur Street between James and up to the Shoppers Drug Mart building
- Euclid Ave south off Arthur Street

Repairs are scheduled to take place on a hydro pole that is on the line that connects power to this area.

Scheduling for the work was planned to minimize impact on the area. Businesses have been visited with notices and consumers may notice that some businesses have taken steps to reschedule their opening hours on that day.
