**Fraudulent Sales Calls Made to Thunder Bay Hydro Customers**

Thunder Bay, ON – Thunder Bay Hydro has received information from concerned customers regarding phone calls from a company claiming to offer a device that could save them up to 40 per cent on their electricity bills. In some circumstances, the caller indicates that the device has been approved by Thunder Bay Hydro. The fraudulent callers have been asking for credit card numbers.

Thunder Bay Hydro has not approved of such a device and advises all customers to exercise appropriate caution and due diligence if they are contacted by anyone selling energy savings devices or claiming to represent Thunder Bay Hydro for the purpose of selling a product.

Similar calls have been reported in other provinces.
