

NOTICE

HYDRO WORK IN YOUR NEIGHBOURHOOD

Thunder Bay Hydro is in the process of upgrading the electricity system throughout your neighbourhood. Crews will be setting new hydro poles and upgrading the voltage for power lines. This will improve the reliability of the equipment in the area and make the system more efficient.

Work will be resuming in this area during the week of May 25, 2009 and continuing through the summer.

The area affected includes:

- Streets South of Red River and North of John Street
 - **South Hill Street**
 - **Winnipeg Avenue**
 - **Summit Avenue**
 - **High Street**
- Streets between Rupert and High Street
 - **North side of John Street**
 - **South side of Red River Road**

If you have received this notice, your home or business may experience a few power interruptions during the course of the project. One time this will happen is when we transfer your home service to the new power line. If we anticipate a longer interruption, we will notify you in advance wherever possible.

We expect this work to be completed by October 2009.

If you have any concerns or questions,
please call **Ron Anderson, Line Supervisor at 343-1181.**
