

# NOTICE

## HYDRO WORK IN YOUR NEIGHBOURHOOD

Thunder Bay Hydro is upgrading the electricity system throughout your neighbourhood. Crews will be replacing old hydro poles and power lines. This will improve the reliability of the equipment in the area and make the system more efficient.

Crews are expected to begin by setting new poles this month. Work with pole setting will continue through February 2012.

Areas affected include:

- Holly Crescent
- Linwood Crescent
- Caroline Street
- Gordon Street
- James Street south of Walsh to the tracks
- Brown Street between Walsh and Christina
- Leland Ave south of Walsh Street
- West side of Edward between Walsh and the MJL Black Library
- South side of Walsh between James and Edward

If you have received this notice, your home or business may experience a few power interruptions during the course of the project. One example of when this may happen is when we transfer your home service to the new power line. If we anticipate a longer interruption, we will notify you in advance wherever possible.

We expect the line work to be completed by Autumn 2012.

If you have any concerns or questions or need to speak with us about a requirement to be notified before a power outage please call **our Construction Office at 343-1181**  
(please reference the “Isabella-Brown” project)
